Relative experience / Projects

Sassy Pets Adoption Application | Link to - ([GitHub](#)) | Link to [Deployed Project](#)

Summary: A collaborative project creating a fun pet adoption website to allow prospective pet owners the ability to search through available pets in their area. To increase the likelihood of adoption, humorous search criteria through jokes were applied to help users make a better connection with their selected pet.

Tools: CSS frameworks (Bootstrap), Google Font, Font Awesome, HTML, JavaScript, Petfinder API, Joke API, jQuery.

Workday Scheduler Application | Link to - ([GitHub](#)) | Link to [Deployed Project](#)

Summary: Created a calendar app that allows the user to save events for each hour of the day. The calendar displays current day also the ability to create and save events for each hour during standard business hours with color coded time blocks indicating past, present and future.

Tools: HTML, CSS, JavaScript, jQuery, Moment.js library.

Workout Tracker Application | Link to - ([GitHub](#)) | Link to [Deployed Project](#)

Summary: Created a workout tracker application utilizing MongoDB and Mongoose Schema. The workout app tracks daily workouts by logging multiple exercises in a workout.

Tools: Express.js, API for handling routes, Mongo database, creating a Schema with Mongoose, MongoDB Atlas to connect data to application

Other experience

01/2011 - 01/2020

Production Coordinator, Wayland, MA

- Production coordinator is the liaison between the company's affiliates and vendors; working to and retain all current and new customer relationships.
- Key responsibilities include: providing customers with a detailed overview of the company's services, processes and procedures, following up on orders, resolving problems and logging-in correspondence via fax or email.
- Partner with IT to discuss implementation of new processes, which includes helping to update software and website so it's more user friendly.
- Partner with Invoicing, Accounts Receivable and Accounts Payable to ensure that the customer's needs are met.
